

# 4-H CALENDAR PLANNER

2009 - 2010

Brown County 4-H Leaders Association

## Goals:

1. To set and achieve at least two goals that will improve the Brown County 4-H Program and help the Leaders Association function more effectively.
2. To form committees that have broader representation from throughout the county, have a clear understanding of their purpose, and are committed to completing their task.
3. To encourage youth leadership by actively involving them in our association, listening to their input, acting on their recommendations, and providing them with additional opportunities for leadership development.
4. To plan and carry out one county-wide 4-H community service project.
5. To offer three county-wide educational workshops for members and leaders this year.
