**BROWN COUNTY LEADERS AIM TO REDUCE JAIL POPULATION
AND RECIDIVISM THROUGH DAY REPORT CENTER**

[Effort is part of larger Mental Health Initiative to provide more effective resources and community improvement in Brown County]

Brown County, WI – Brown County Leaders will hold a news conference to highlight the community benefits of the Day Report Center contained in Brown County’s 2016 \$1.15 million Mental Health Initiative. The Day Report Center would offer an additional option to allow persons in the criminal justice system identified for pre-trial release and involvement in one of the Brown County Treatment Courts an opportunity to receive out of jail services and daily monitoring. Day Report Center staff, working with the Brown County Jail, local law enforcement, the District Attorney’s Office and other community agencies, would address the needs of participants as well as public safety concerns. Day to day accountability and intensive case management would provide the most effective services while reducing jail population growth, recidivism and taxpayer costs. The proposal passed the Human Services Committee and will be taken up by the newly elected Brown County Board on April 19, 2016.
