

2019 Brown County

Annual Boat Launch Information

The Brown County Annual Launch Pass must be **permanently affixed** to the backside of the trailer winch post. * If the design of your trailer prohibits the clear view of the sticker, place the sticker on the left side of the winch post in a visible location. Stickers not permanently affixed or not displayed properly are invalid and may result in a fine being issued.

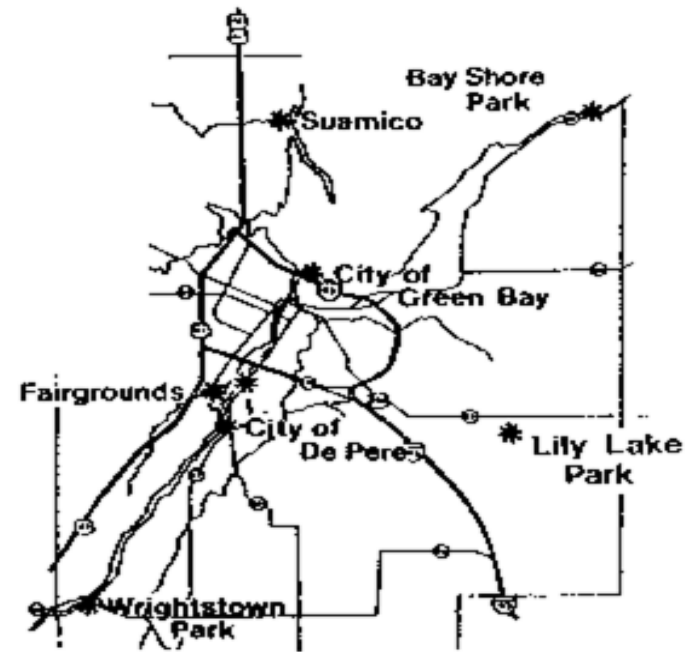

Note: Stickers will not adhere to trailers that have a protective coating such as road armor. We suggest mounting stickers on a piece of plexiglass or similar material and mounting it on the trailer tree/winch post. Some trailer models with this protective coating may have an uncoated location on the jack stand mounting plate where you could adhere the sticker.

* Canoes, kayaks and all other watercraft not hauled by trailers must affix the sticker directly to the watercraft.

Additional stickers are available for \$5 for other watercraft owned by the same person. You must provide your registration receipt from your first sticker and **proof of ownership of other watercraft** to purchase additional stickers. Registration must be current.

If you sell or transfer ownership of the watercraft a \$10 replacement sticker can be obtained by **removing the old sticker** and returning it to the location you purchased it. **You must return the old sticker** to receive the replacement sticker. If the sticker is not available to return you must contact Brown County Park Department at (920) 448-6242.

The Annual Launch Pass is valid at all boat launches operated by the City of Green Bay, City of De Pere and Brown County as listed on the back side of this flyer.
