From newspapers across the country...

[Story County, Iowa] Sheriff Paul Fitzgerald said that since the county is responsible for medical expenses of inmates, the jail has saved over \$930 in November.

"This is a significant savings," J.B. Hopkins, jail administrator, said. "Just about everyone (incarcerated) doesn't have insurance ... that is just reality."

People who are prone to be jailed often are in need of medical care, whether it's headaches, heart problems or mental illness, Hopkins said. Out of pocket medical bills for the 95 average daily inmates stack up to nearly \$7,000 each month. Future savings could total over \$12,000 by

the end of the year, he said.

"We've mailed several cards out, as well as people coming in for them," said Woodbridge Supervisor Hilda Barg. "It's a very successful program."

"We are excited about this program," said [Sumter County Commissioner Jim] Roberts, who said that 40,000 cards were received and can be obtained at Sumter County government offices.

"This is free to us and free to the resident."

...I thought I'd pass on a good story. Our little [supermarket chain pharmacy] in Coquille has given out 200 cards since Monday. They just called and asked me for a new supply. They said they are wonderful and the customers are saving tons of money.

NEWS FLASH - An employee in the County Engineer's office had a grand experience with the new prescription discount card that I wanted to share with you. Last month, she paid \$70 at [her regular pharmacy] for a prescription which was not covered by [her prescription drug insurance]. This month, she presented the County's discount card and paid only \$17.15!

Woohoo!! Hope we hear many more success stories like this one. I'll keep you posted.

RE: Sedgwick County [Kansas] Prescription Card

Date: Dec. 12, 2005

After I had to leave my job because of health problems, and my COBRA ran out, I was unable to afford individual insurance premiums. That left me with out-of-pocket expenses of nearly \$6,000 a year for the prescription medications necessary to treat my conditions.

I first heard about the Sedgwick County Commission's approval of a prescription discount program on the evening news and immediately signed up for the county's e mail newsletter, so I would know when it went into effect. The program has far exceeded my expectations!

First, it was so easy. There are a number of locations where the card can be picked up, but I chose the Health Department. There were no forms to fill out, no interviews. All I had to do was walk in the door and ask at the front desk and the receptionist handed me the card and information. Since virtually every pharmacy in the county accepts the card, it was also easy to use. My pharmacy entered the card information into my record and I began receiving the discount right away.

Secondly, and of course, most importantly, I have also saved a great deal of money with Sedgwick County's program. Since I first began using it last February, I have saved a total of 17 percent on my medications. That will amount to about \$1,000 over the course of a year!

What I feel is an added benefit has been the ability to return my business to a local pharmacy. Without any prescription coverage, I felt it was necessary to purchase my medications at one of the large, national "discount" stores to save money. But with my Sedgwick County card, I have transferred everything back to a local family-owned pharmacy. So the program also helps strengthen our local business community.
